

# All Points Bulletin

- HRSA mandates that all clients currently enrolled in state ADAPs or applicants on the state ADAP waiting lists recertify every six (6) months to maintain their status in the program.
- Effective April 1, 2012, the Florida ADAP will require each client to have their recertification (enrollment) completed every six (6) months. There will no longer be a grace period – the recertification **MUST** be completed by the client's enrollment date.
- In order to accommodate this requirement, ADAP has made adjustments in the database for early recertification.
- Persons who fail to recertify timely will be closed to the program (or the waiting list).
