

Community Emergency Response Exercise

On May 1st, 2004, Miami Dade County Health Department participated in the annual CERT exercise held by the [Miami-Dade Office of Emergency Management](http://www.co.miami-dade.fl.us/oem/home.asp) <http://www.co.miami-dade.fl.us/oem/home.asp>

This year's exercise took place on the grounds of the Homestead Sports Complex in the City of Homestead, which served as our host.

Supporting this year's event were many community and business partners. They provided us a realistic playing field, in which CERT teams from around the State practiced their skills.
