Dear Miami-Dade County Residents:

The Florida Public Antiviral Stockpile Program has been established to ensure that all Florida residents and visitors who have been prescribed antiviral medications for influenza-like-illness have access to these medications regardless of their ability to pay.

Florida has created a stockpile of antiviral medications from the Florida allotment of the federal Strategic National Stockpile (SNS) and from purchases made by the Florida Department of Health. If the H1N1 influenza pandemic worsens over the next months prior to the widespread availability of the H1N1 vaccine, there may be a period of time when there will be a high demand for antiviral medications (such as Tamiflu® and Relenza®).

Participating community pharmacies will continue to fill antiviral prescriptions through their normal business processes. A dispensing fee, maximum of \$10 per prescription, may be charged by the dispensing pharmacy to the patient. However, the Pharmacy will waive this fee if the individual makes a verbal declaration of an inability to pay. The pharmacy will fill the prescription and document the transaction in the established tracking format. No other proof of economic hardship will be required.

Not all community pharmacies will participate in the Florida Public Antiviral Stockpile Program. The main criteria for selection of pharmacies are based on geographic location, population demographics, and the distribution and severity of disease. The stockpile antiviral medications will only be available at participating pharmacies.

Please refer to the next pages for the names and locations of participating pharmacies.

For additional information concerning 2009 H1N1 Influenza you may visit [www.myflusafety.com](http://www.myflusafety.com) or [www.dadehealth.org](http://www.dadehealth.org). Information is also available by telephoning Miami-Dade County Health Department at 305-234-2400 or the Florida Department of Health H1N1 information number 1-877-353-3581 (English, Spanish, Creole).

Sincerely
