## INTRODUCTORY NOTE TO NEW MONTHLY REPORT VERSION

**Due to the new implementation of a computerized system of entering, retrieving and analyzing HIV/AIDS data in our state, electronic HIV/AIDS Reporting System [eHARS], there are some changes reflected in the way to process and present the information, different from the old HIV/AIDS Reporting System [HARS] and monthly HIV/AIDS Surveillance Report. This new way to produce data is reflected in the format in our monthly report including more information than before. Henceforth the data referred to HIV and AIDS cases will exclude those from Department of Correction [DOC], instead DOC information is provided in a separate worksheet in seven (7) different tables with demographics. New tables will reflect information for People Living with HIV or AIDS in our County in a separate worksheet and useful website link will provide a new tool to find HIV/AIDS related data beyond our County as well. All these changes will allow the Miami-Dade County Health Department Administration and public in general to have more detailed information concerning the HIV/AIDS epidemic in our County.**
